Klockit's Guarantee

Our success depends on *your success* with our products! If, for any reason, you are not completely satisfied with the merchandise in our catalog, return it to us within 90 days for an exchange or refund of your purchase price. We ask only that you return merchandise in its original condition. See the Return Policy on our order form for full details (page 34).

The Right Tools for Your Project

Occasionally you will need to supply some common tools to help complete a clock kit. If needed, that tool's icon (shown below) will appear near the kit.

Pop-Up Sofa Table Plan & Components

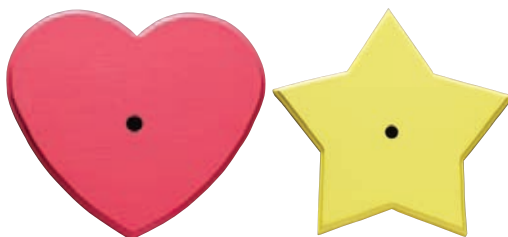

Functionality meets style with this unique sofa table. Great for small spaces. The sofa table can serve as a standard coffee table or open to a height of 24" for a convenient working space. Dimensional modifications can be made to easily allow this table to be compatible with any home sofa or furnishings. Guests are sure to admire this piece.

- Finished Size: 40"L x 25"W x 16 $\frac{3}{4}$ "

10-YEAR WARRANTY

Your assurance of Q-80 quality and dependable time-keeping performance.

Made In USA

10 YEAR WARRANTY

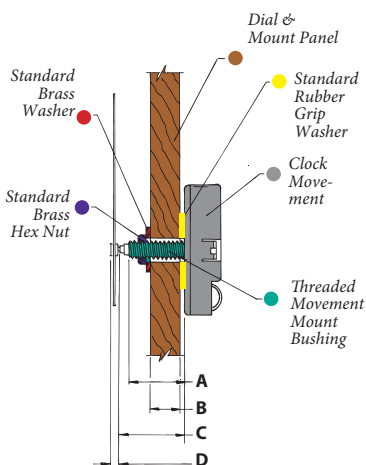

Reference Guide For Quartz Movements

A Dimension: Measure the total length of the *threaded* portion of the movement mount bushing.

B Dimension: Referred to as Max. Dial Thickness—Measure the thickness of the dial plus material dial is mounted to (such as wood). This dimension determines the Total Hand Shaft Length needed.

C Dimension: Referred to as Total Hand Shaft Length—Measure the overall shaft length from the front of the movement to the end of the hand shaft.

D Dimension: Add 1/8" to C Dimension when using a sweep second hand or closed nut behind a glass panel.

If you already have a quartz movement and want to:

- Determine the Maximum Dial Thickness You Can Use—You should subtract 1/8" from the A Dimension (threaded portion of the bushing)
- Use Your Movement Behind Glass—You should add 1/8" to the C Dimension (total hand shaft length)

Q-80 Premium & Standard Quartz Clock Movements

Choose our Premium, Made in the USA, quartz motor in black or our Standard quartz motor in black or clear. All of our quartz movements make clockmaking a snap—no clock building expertise is required. In only minutes you can make a unique clock and begin a truly enjoyable hobby! The clear case motors are perfect for glass, plexiglass, or stained glass clock projects. These movements are compact (fit in a 3" round hole), durable, operate on one AA battery and have a built-in molded hanger strong enough to hold up to 4 lbs! A heavy-duty hanger is also available (sold separately, see page 13) for clocks heavier than 4lbs.

- 10-year Warranty
- Free Hardware
- Accurate to +/- One Second Per Day
- Operate on One AA Battery (not included)
- Built-in Molded Hanger Holds up to 4 lbs.
- Free Pair of Hands (see page 14)
- Select Group A Sweep Second Hand (additional charge, see page 15)
- Free Ground Shipping on Trays of 100 Quartz Movements (within the US, order by tray no.)
- Shaft Diameter: 3/16"
- Case Size: 2 1/2"H x 2 1/2"W x 5/8"D

10 Second Recordable/Dual-Chime Quartz Movement

Plays *Westminster* or *Whittington* melodies or your own recording! Available in pendulum or non-pendulum styles.

- 1-year Warranty
 - Night Silencer & Chime Shut-off Options
 - Volume Control
 - 12" Lead Wires
 - Built In & External Microphones for Recording
 - Free Pair of Hands (see page 14)
 - Select Group B Sweep Second Hand (additional charge, see page 15)
 - Shaft Diameter: 5/16"
 - Pendulum version includes a pendulum case assembly, 16" breakaway pendulum rod, and 2 3/4" bob
 - Non-Pend. Movement Size: 2 3/8"H x 2 3/8"W x 3/8"D
 - Pendulum Movement Size: 5 1/2"H x 2 3/8"W x 1 1/4"D
 - Maximum Dial Thickness: 7/8"
 - Total Hand Shaft Length: 7/8"
 - Requires three AA batteries: 45001 \$.69 ea.
- 12264 Non-Pendulum Movement \$25.99**
- 12265 Pendulum Movement \$29.99**

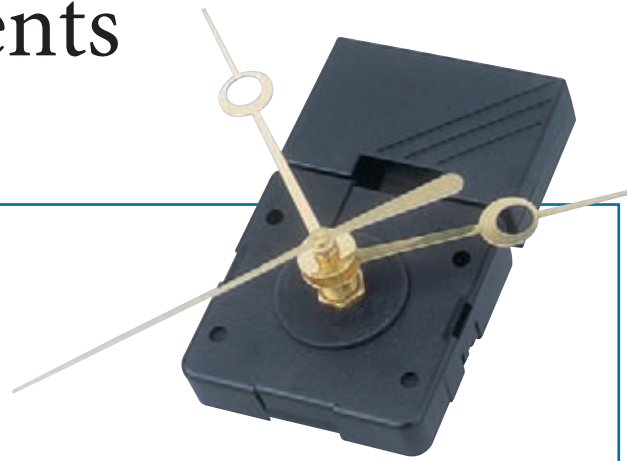

Atomic Time Movements

Imagine owning a clock that is always accurate to the exact second and that automatically sets itself to the correct time at annual daylight saving changes!

Quartex Standard Atomic & High Torque Atomic Clock Movements

Both standard and high torque movements contain a miniaturized radio receiver that monitors a low frequency time signal that broadcasts from Fort Collins, Colorado. That signal enables the movement to self-correct every day so it always shows the exact time according to the national time standard. The high torque movement is capable of running both traditional or extra-long clock hands and is equipped with a special antenna designed for increased reception sensitivity.

- 1-year Warranty
- Synchronized with WWVB up to 5 Times per Day
- Accurate to +/- 1 Second per Day
- Step Second Motion
- Shaft Diameter: $\frac{5}{16}$ "
- Case Size: $3\frac{5}{8}$ "H x $2\frac{3}{8}$ "W x $\frac{5}{8}$ "D
- Free Pair of Hands (see page 14) or Extra-Long Hands (for 10171 only; additional charge, see page 6)
- Select Group A Sweep Second Hand (additional charge, see page 15)
- Sweep Second Hand is Required to Set Clock
- Requires one AA battery: 45001 \$.69
- Due to Radio Signal, Movement Cannot Be Used with Metal Dials

Standard Stock No.	High Torque Stock No.	Max. Dial Thickness	Total Hand Shaft Length
10146	—	$\frac{1}{8}$ "	$\frac{7}{16}$ "
10143	10171	$\frac{1}{4}$ "	$1\frac{1}{16}$ "
10145	—	$\frac{1}{2}$ "	$1\frac{5}{16}$ "

*** While Supplies Last**

8 7/8" Dial with RC Logo

Cream-colored paper dial with rich brown numerals and RC logo.

Suggested hand size is 4". (Hands sold separately, see page 14).

26153 Paper Dial \$1.99

Set & Forget Time Movements

Quartex Set & Forget® Movements

Set & Forget® is a patent-pending technology that makes clocks automatically spring forward and fall back when Daylight Saving Time change occurs twice a year with no radio signals required! There's no need to manually set the date. The internal microchip "calendar" is pre-programmed with the date until the year 2030! Just insert battery and set time!

- 6-year Warranty
- Case Size: $2\frac{1}{2}$ "H x $2\frac{1}{2}$ "W x $\frac{5}{8}$ "D
- Shaft Diameter: $\frac{5}{16}$ "
- Free Pair of Hands (see page 14)
- Select Group A Sweep Second Hand (additional charge, see page 15)
- Electric Models Have a 6 Foot Black Cord
- Battery Models Require one AA battery: 45001 \$.69
- No Radio Signal Required

"Bim-Bam" Mechanical Strike Movement With Adjustable Pendulum

This quality movement strikes out two-note "Bim-Bam" on the hour. The mechanical strike mechanism, made of two finely tuned copper rods, is mounted in a cast-iron block.

- 3-year Warranty
- Convenient Chime Silencer
- Shaft Diameter: Approximately $\frac{3}{16}$ "
- Movement Operates With or Without the Pendulum
- 16" Breakaway Pendulum Rod (Pendulum Hook is $\frac{7}{8}$ " from Movement Front)
- Free Pair of Hands (see page 14)
- This Movement Does Not Use a Second Hand
- Movement Size (With Chime Rods): 7"H x 5 $\frac{1}{2}$ "W x 2"D
- Maximum Dial Thickness: $\frac{5}{16}$ "
- Total Hand Shaft Length: $\frac{7}{8}$ "
- Requires one D battery: 45003 \$1.50

Helpful Hints

Measuring Pendulum Swing

When the pendulum movement is installed in a case, you must allow sufficient clearance to prevent the pendulum bob from hitting the sides of the clock case (A). Allow an additional $\frac{1}{2}$ " on both sides for clearance. Movement must hang perfectly straight in order for the pendulum to operate properly.

Quartz Cuckoo Clock Movement

Create your own cuckoo clock with our plastic cased cuckoo clock pendulum movement.

- 3-year Warranty
- Minimum Inside Case Dimensions: 8"H x 5"W x 3"D
- Cuckoos On the Hour
- Hi/Lo/Off Volume Switch for Cuckoo
- Light Sensor Night Silencer
- Includes Free Plan, Chains, Weights, and 5/4" plastic Dial
- Pendulum Length: 11"-12"
- Requires two D batteries:

45003 \$1.50 ea.

12227 Cuckoo Movement \$64.99

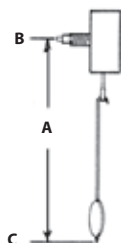

Helpful Hints

Measuring Pendulum Length

Mounted pendulum lengths (A) are measured from the center of the hand shaft (B) on the movement to the tip of the pendulum bob (C).

Note: The pendulum itself will be shorter than the measurement from (B) to (C).

Seiko Electronic Dual-Chime Movement With Remote Speaker

- Electronically Plays *Westminster* or *Whittington* Melody on Quarter-Hours & Strikes Out the Hours
- Volume Control • Night Silencer
- 16" or 22" Breakaway Pendulum Rod (Pendulum Hook is 1/2" from Movement Front)
- 3-year Warranty • Shaft Diameter: 3/16"
- Free Pair of Hands (see page 14)
- Select Group A Sweep Second Hand (additional charge, see page 15)
- Total Hand Shaft Length (short shaft): 3/8"
- Total Hand Shaft Length (long shaft): 1 1/8"
- Non-Pendulum Movement Size: 2 3/8"H x 3 3/4"W x 1 1/16"D
- Pendulum Movement Size: 4 3/8"H x 3 3/4"W x 1 1/16"D

Tubular Quad Chime Quartz Movement

The clear, vibrant, resonant chimes of this movement are reminiscent of the tubular chimes you'd hear from a Grandfather clock.

- Plays *Westminster* on The Hour And Quarter Hours, *Ave Maria* on The Hour And Quarter Hours, *Bim Bam* on The Hour, or *Gong* on The Hour And Half Hour
- Volume Control & Night Silencer
- 15 1/2" Lead Wires • Shaft Diameter: 3/8"
- Maximum Dial Thickness: 12001: 1/4"; 12002: 3/8"; 12003: 1/2"
- Movement Size: 4 7/16"H x 4 5/8"W x 1 1/4"D
- Chime Case Size: 3 1/16"H x 2 5/16"W x 1 1/4"D
- Bushing Length: 12001: 3/8"; 12002: 1/2"; 12003: 1 1/16"
- Use with 16" or 22" Breakaway Pendulum Rod & Your Choice of Bob (each sold separately, see page 13). Pendulum Hook is 3/4" from Movement Front.
- Free Pair of Hands (see page 14)
- Select Group B Sweep Hand (additional charge, see page 15)
- Requires two C batteries: 45002 \$1.20 ea.

12001 Short Shaft \$59.99

12002 Medium Shaft \$59.99

12003 Long Shaft \$59.99

16" Antique Pendulum

A distressed finish gives this pendulum an old-fashioned appeal. Single hook breakaway rod can be snapped off at varying lengths.

- 3 1/2" diameter bob.

20051 Pendulum \$6.49

Dress Up Your Quartz Movement with Decorative Accessories

Use This Unique Case To Create A Pendulum Clock

Case converts your Q-80 Mini Quartz Movement (see page 4) into a Pendulum Movement. Just insert the movement into the case for an easy and economical alternative to more costly pendulum movements.

- 16" Breakaway Pendulum Rod
 - Mounted Pendulum Length: 19" (Pendulum Hook is $\frac{3}{8}$ " from Case Front)
 - Max. Pendulum Swing: 6"
 - Polished Brass Bob: $2\frac{3}{4}$ " dia.
 - Case Size: $5\frac{1}{2}$ "H x $2\frac{3}{8}$ "W x $1\frac{1}{4}$ "D
 - Requires one AA battery: 45001 \$\$.69
- 20071 Pendulum Case Assembly \$6.49**

Acrylic Clock Stand

This upright clock stand works by inserting the movement shaft through one of the pre-drilled holes and then fastening the dial to the movement shaft from the front. Overall height: 5 $\frac{1}{2}$ "

26851 Clock Stand \$2.99

Brass Beat Plaque

1"H x 3 $\frac{3}{8}$ "W.

38092 Beat Plaque \$4.99

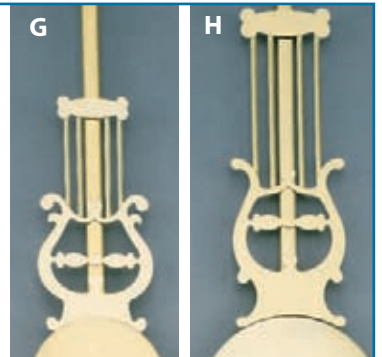

G-H. Polished Brass Lyre Attachments

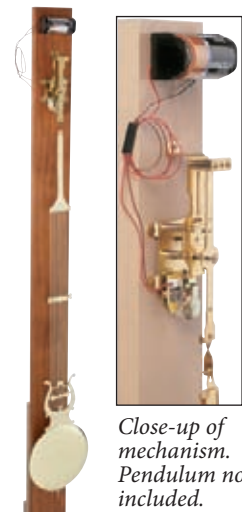

Add lyre attachment to any standard quartz pendulum movement.

G. 20075 4 $\frac{3}{8}$ "H x 2 $\frac{1}{4}$ "W
Fits 2"-2 $\frac{1}{4}$ " Bobs **\$1.59**

Independent Pendulum Drive Unit

This unit allows you to swing a long wood stick or lyre pendulum like those used with very expensive mechanical clock movements. Includes instructions.

- 1-year Warranty
 - Easy Installation
 - Remote Mount Battery Holder
 - Pendulum Swing Depends on Pendulum Length, Weight, & Bob Diameter
 - Swings Pendulums up to 2.5 Lbs.
 - Dimensions: 6 $\frac{3}{8}$ "H x 2 $\frac{3}{4}$ "W x 1 $\frac{1}{8}$ "D
 - Requires one D battery: 45003 \$1.40
- 19012 Drive Unit \$44.99**

Close-up of mechanism. Pendulum not included.

Decorative Weight Shells & Chain

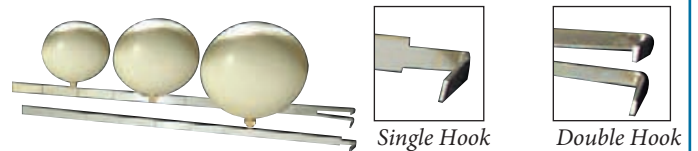

Includes 18" chain. Decorative chain will hold decorative weights only.

23013 Grandmother Weight Shells
1 $\frac{1}{8}$ "W x 9 $\frac{1}{8}$ "L; set of 3 **\$29.99**

23014 Grandfather Weight Shells

Hour/minute hands listed in red are steel.

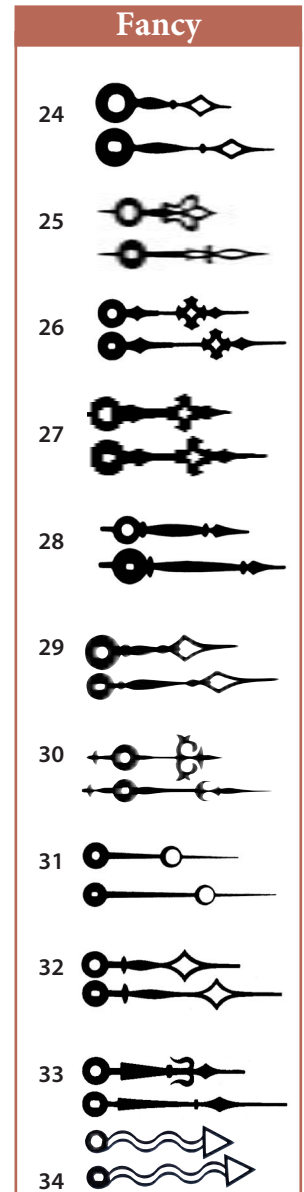

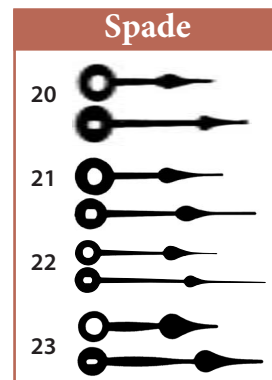

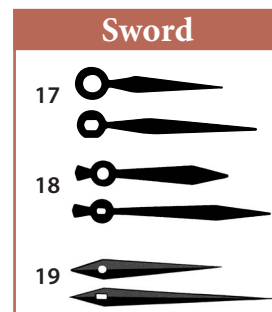

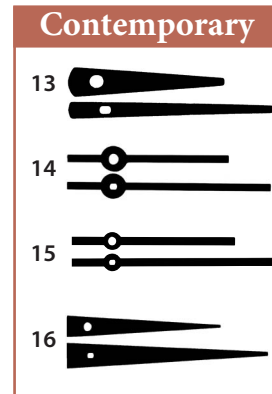

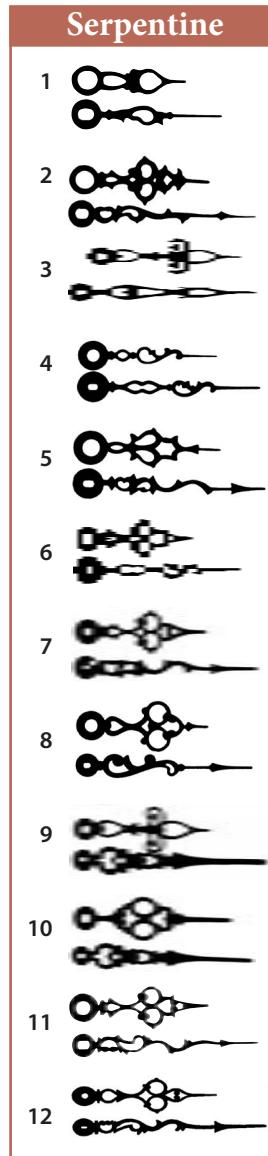

All other hour/minute hands listed are aluminum.

FREE Hour & Minute Hands For Quartz Movements

Get your choice of FREE hands with each quartz movement ordered. To select the correct length hands, measure from movement shaft hole to time ring on your dial. Hour/minute hands listed in red are steel. All other hands listed are aluminum (black or brass). Hand sizes are approximate. Hour hands are proportionate to minute hands.

Up to 1/4" can be trimmed off tip if needed. Black hands can be spray painted any color. Brass hands ship with a colored plastic coating; remove prior to assembly. Hands are not shown actual size.

Prices for extra Hands: (1-24) \$.50 ea., (25-49) \$.40 ea., (50-99) \$.35 ea., (100+) \$.30 ea.

Helpful Hints

Minute Hand Measurement

Minute hands are measured from the tip of the hand to the center of the mount hole.

Helpful Hints

Assembling Hands To A Movement

Before mounting the hour hand, place the minute hand on the "I" shaft and rotate the hand pointer to exactly the 12 o'clock position. Remove the minute hand and press the hour hand onto its shaft making sure the pointer is at the given hour indicator. Never rotate the hour hand in either direction once the hand is pressed down on the tapered hour shaft. Use the rear set-knob to set the time.

Sweep Second Hands

To make sure you order the correct sweep, check the information listed with the movement you are ordering. It will direct you to Group A or B. Sweeps can be clipped 1/4" to change the length.

The sweeps from different groups are not interchangeable.

Sweeps Pricing: (1-49) \$.40 ea., (50-99) \$.35 ea., (100+) \$.30 ea.

Hands not included. Cannot be used with Atomic Time Movements.

Helpful Hints

Time Ring:

The time ring diameter is important when selecting hands. Generally the minute hand length should be half the time ring diameter. Measure the diameter from one outside edge to the other, straight across the shaft hole.

Dial Size (Dia.)

Measure the dial diameter from edge to edge, straight across the shaft hole.

Helpful Hints

Measuring Dials With Glass Bezels

The measurements at right are diameters of the dial, including the bezel, from (A) to (B). When measuring for an opening, remember that there is about ⅛" between the nail holes in the dial and the outer edge of the bezel ring. Order your dial about ⅛" larger than the clock case opening (C).

Imported Glass & Bezel

Glass and polished brass bezel is hinged to allow easy access to the dial. Imported from Germany. This glass and bezel works well with dial #26095 (sold separately, see page 38).

• Outside Diameter: 11½"

• Max. Dial Size: 11⅜"

P

Custom Dial Punching

We recommend that you buy your movement before building your case to ensure a perfect fit. Select your dial, then call our Customer Service Department or indicate on your written order which dials you want punched and the Winding Arbor diagram (see page 56) or movement stock number dial will be used with. **Please Note: Custom punched dials cannot be returned.**

26914 & 26915 dials are custom punched using antique brass grommets. All other dials are punched with brass grommets. The following dials cannot be punched: All ceramic dials, 26121, 26334, 27015, 27017, and all dials on page 54 (except 28002).

26999 with Brass Grommets \$11.99 per dial
26998 with Antique Brass Grommets \$11.99 per dial

Inserts...The Most Versatile Clock-Making Accessory

A

B

C

D

A-D. Micro-Mini Seiko Clock Inserts

Micro-mini inserts are designed for a variety of applications. Plastic bezel, lens and backplate. Friction-fit mounting system. Battery included. 3-year warranty.

- Mounting Diameter: $\frac{29}{32}$ "
- Mounting Depth: $\frac{1}{4}$ "
- Replacement Battery: 45021 \$.99
- 15700 & 15701 Use Forstner Bit: 53015 \$9.99
- 15334 & 15335 Use Forstner Bit: 53334 \$9.99

	Stock No.	Dial Color	Bezel Color
New!	A 15700	$\frac{29}{32}$ " White Arabic	Gold
New!	B 15701	$\frac{29}{32}$ " White Arabic	Silver
	(1-4) \$5.99 ea., (5-9) \$5.79 ea., (10+) \$5.59 ea.		

	C 15334	Ivory Arabic	Gold

	(1-4) \$7.19 ea., (5-9) \$6.99 ea., (10+) \$6.79 ea.		

27mm Mini Seiko Insert

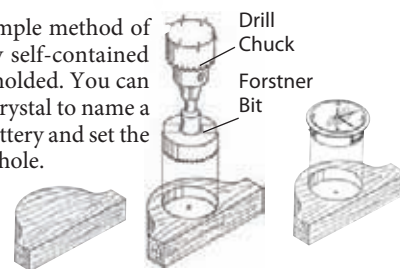

The next size up from our micro-mini inserts can be used for many applications. Plastic bezel, backplate and lens. Friction-fit mounting system. Battery included. 1-year warranty.

- Mounting Diameter: $\frac{63}{64}$ "
- Mounting Depth: $\frac{1}{4}$ "
- Replacement Battery: 45021 \$.99
- Use Forstner Bit: 53016 \$9.99
- 15702** (1-4) \$5.99 ea., (5-9) \$5.79 ea., (10+) \$5.59 ea.

Quartz Clock Inserts

Our quartz clock inserts offer another extremely simple method of clockmaking. Simply mount one of the completely self-contained clock inserts in a hole that has been drilled, cut or molded. You can do this with any material: wood, fabric, ceramic, or crystal to name a few. Like the quartz inserts, you need only install a battery and set the time. You'll then be ready to pop the insert into the hole.

What could be easier? See our clock (and weather) inserts on pages 22-29 of this catalog. All clocks have a 3-year warranty unless noted.

1 $\frac{3}{8}$ " Compass

- Mounting Diameter: 1 $\frac{3}{8}$ "
 - Mounting Depth: $\frac{1}{8}$ "
 - Overall Depth: $\frac{3}{8}$ "
 - Use Forstner Bit: 53266 \$10.99
- 32222 1 $\frac{3}{8}$ " Compass** (1-9) \$1.29 ea., (10+) \$1.19 ea.

1 $\frac{1}{16}$ " Luminous Dial Insert

The perfect insert for a bedside clock. The entire dial glows in the dark! Pale yellow Arabic dial (in daylight) with gold-tone plastic bezel, metal backplate, and glass lens. Friction-fit mounting system. Battery included. 3-year warranty.

- Mounting Diameter: 1 $\frac{1}{16}$ "
- Mounting Depth: $\frac{1}{4}$ "
- Replacement Battery: 45021 \$.99 ea.
- Use Forstner Bit: 53266 \$10.99

15654 (1-4) \$7.59 ea., (5+) \$7.29 ea.

1 $\frac{1}{8}$ " Bold Numeral Seiko Insert

Features "big-n-bold" dial numbers and easy access battery. Metal bezel, backplate, and glass lens. Rubber ring mounting system. Battery included. 3-year warranty.

- Mounting Diameter: 1 $\frac{1}{8}$ "
 - Replacement Battery: 45021 \$.99
 - Mounting Depth: $\frac{1}{4}$ "
 - Use Forstner Bit: 53266 \$10.99 (Lightly sand to fit)
- 15621 White Dial** (1-4) \$6.99 ea., (5-9) \$6.79 ea., (10+) \$6.59 ea.
15699 Gold Dial (1-4) \$6.99 ea., (5-9) \$6.79 ea., (10+) \$6.59 ea.

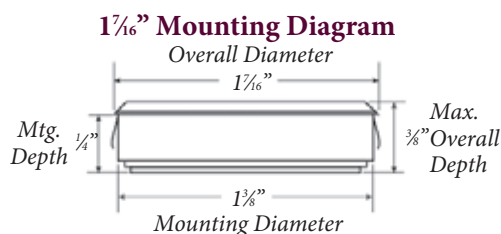

E-G. Make Your Own Pocket Watch!

To make beautiful pocket watches just purchase a Chain (E), Coupler (F), Wood Ring (G) and any 1 $\frac{1}{16}$ " Insert. Connect the coupler to the chain and screw the coupler into a wood case, add your insert and you've just created a Pocket Watch! Chain has coupler clip at one end and belt/pocket clip at other end. Coupler has wood screw threaded end for mounting. Wood ring has rounded edges on the front and the back. *Clock insert not included.*

- E. 38408 15" Chain** \$2.99
- F. 38409 $\frac{1}{2}$ " L x $\frac{1}{8}$ " dia. Coupler** \$.99
- G. 35900 Wood Ring** \$1.19

1 $\frac{1}{16}$ " Mini Inserts

A-M. 1 $\frac{1}{16}$ " Mini Clock Inserts With Multi-Clock Uses

They're ideal for smaller desk sets, clocks, or to mount on a car or boat dashboard. And what a selection! Plastic bezels, metal backplate, glass lens (unless noted). Friction-fit mounting system. Battery included. 3-year warranty.

- Mounting Diameter: 1"
- Mounting Depth: $\frac{1}{4}$ "
- Replacement Battery: 45021 \$.99 ea.
- Use Forstner Bit: 53266 \$10.99 (for 15372, lightly sand to fit)

Mix and match for quantity discount.

- Use Forstner Bit: 53234 \$23.99

- Requires one N battery (sold separately): 45004 \$.80

15670 Ivory Tide Insert \$10.29

15671 White Tide Insert \$10.29

Customer-Inspired Design

Klockit's new tide dial inserts were actually inspired by the need of a long-time Klockit customer, Gary Marchione, for a more well-rounded weather station. After a brainstorming session with our Product Development Manager, the tide dial insert was born. Our many thanks to you Gary, for this wonderful new product idea!

A-K. 3 3/8" (98mm) Slim Profile Inserts

Galileo Thermometers

The thermometer works on the principle discovered by its namesake Galileo, that liquids change density as temperature changes. The colored glass spheres have been precisely weighted so that they respond to temperature changes by rising or falling in a liquid filled, handblown glass cylinder. The lowest floating sphere indicates the current air temperature.

A. 32270 11" Galileo Thermometer
\$16.29

B. 32228 13" Galileo Thermometer
\$14.99

Red Galileo Thermometer

This specialty Galileo tube features floating weighted balls measuring temperature from 60-80 degrees (F). Has a tapered top end and a 2 1/4" base for stability to free stand.

• Size: 11"H x 1 3/8"Dia.

32292 Galileo Thermometer
\$14.99

Liquid Sand Timer

Sand timers date back to the 14th century where one of the earliest uses was for navigation and measuring nautical speed. Use to time phone calls, games and more.

*Handblown tubes can vary in dimensions.

Storm Glass Barometer

The historic storm glass is regarded as the oldest barometer in the world. Each storm glass is handblown and accurately forecasts changes in the weather hours in advance. Fill the barometer with colored water and watch the rising or falling level of the liquid in the spout to indicate weather changes. A low water level signals "high pressure" and fair weather. A high water level is associated with "low pressure" and poor weather conditions. The barometer shown includes a Chinaberry wood plaque (14"H x 6"W), glass barometer, glass drip cup, syringe for filling and complete instructions and comes finished and ready for gift-giving!

32260 Barometer Set (as shown) \$16.99

32287 Components (barometer, drip cup, syringe, instructions) \$11.99

To order call Toll-Free **1-800-556-2548**

Mon.-Fri., 8am - 6pm; Sat., 8am - 4pm (CST)

by FAX (262) 248-9899 or Online at www.klockit.com

Outside Continental U.S., call 1-262-248-1150.

ORDERING INFORMATION

Most orders are shipped within 48 hours of receipt.

Terms of Payment: Payment must be received with your order. You may include your personal check, a bank draft or money order. Any insufficient or closed account checks will receive an additional charge of \$25. We will accept C.O.D. orders (additional charge of \$8.00). **C.O.D. orders over \$250 require payment by certified check or money order.** You may use your VISA, MasterCard, Discover or American Express.

Open accounts are available to all recognized schools, institutions and government agencies. Businesses with a Dun & Bradstreet rating of "Good" or higher must have an initial order of \$250 or more. All orders must be on letterhead or purchase order. Terms: Net 30 days.

Ordering Instructions:

MAIL - Fill in the entire order form with your correct name, address and phone number. Please print clearly.

TELEPHONE - Please prepare your order before calling. Telephone hours are Monday-Friday 8am to 6pm and Saturday 8am to 4pm (CST). 24-hour automated order taking available. We are closed Sundays and on holidays.

ONLINE - Visit www.klockit.com

Shipments: For prompt delivery, please include full street address and phone number. A shipping quote is required for orders delivered outside the Continental US. Foreign orders must include a phone number when ordering.

Return Policy: Our business revolves around you. We want you to be 100% satisfied with your merchandise. Please inspect your package(s) within 30 days of receipt. If for any reason, you are not completely satisfied, you may return the merchandise for exchange, replacement, refund or credit in the amount of the purchase price (standard shipping costs are excluded). We must receive returned merchandise in its original condition before exchanges can be made. Merchandise returned after 90 days from the date of invoice will be subject to a 20% restocking fee. Merchandise that is older than 1 year from the invoice date or not in original condition cannot be returned. Please pack your return carefully. We cannot be held responsible for items damaged during return shipping.

Merchandise that fails under normal operating conditions within the stated warranty period will be replaced or repaired at no charge to the customer.

Substitutions: We continuously search for better quality and at times may substitute a brand of equal or better value for the specific item pictured. We also reserve the right to change prices at any time due to the constantly changing market.

We hope you'll visit our Retail Store located at N3211 County Road H in Lake Geneva, Wisconsin. Store hours are Wednesday through Friday, 9:00am to 5:00pm and Saturday, 8:30am to 4:00pm (Central Time). Closed Sunday and holidays. Be sure to visit us soon!

\$35.99

Suede-Tex Flocking System

Give your jewelry or music boxes a beautiful professional lining with the Suede-Tex Flocking System. The flocking fiber is made from whisker-size sprinkles of rayon fabric. Once it's applied to your finished piece, it looks just like fabric lining. Just paint the area to be flocked with the color matched Suede-Tex Adhesive; while wet, blow the Suede-Tex Fiber on with the Suede-Tex pump-like Applicator; let dry overnight then dump out the excess fibers. It's so easy and looks great! Full instructions are included with the Applicator.

36658 Applicator \$5.19
36660 8 oz. Emerald Green Adhesive
36661 8 oz. Wine Adhesive
36659 3 oz. Wine Fiber
36662 3 oz. Emerald Green Fiber
Adhesive or Fiber... (1-2) \$9.99 ea.,
(3+) \$9.79 ea.

Helpful Hints

Here are some of KLOCKIT'S helpful hints for buying, using and storing KraftKote and Tabletop KraftKote. All hints apply to both KraftKote and Tabletop KraftKote.

Buying KraftKote:

If you are unsure about how much to buy or you want to make sure KraftKote can be used for your specific project, please feel free to call Klockit first (1-800-556-6474) before placing an order.

KraftKote is non-returnable and can only be shipped within the Continental United States.

KraftKote cannot be shipped through the United States Post

Office or to a PO Box.

Using KraftKote:

For best results, you should seal your project first with a water-soluble solution of four parts white glue to one part water. This will help eliminate some of the bubbles that occur when applying KraftKote. We do not recommend using KraftKote on floors or for outdoor use.

Do not use polyurethane varnish or an oil-based sealer to seal your project. KraftKote will separate.

Storing KraftKote:

Store all KraftKote in original containers, sealed tightly in a dark area to extend the shelf life. Store at a temperature between 70°F-80°F and a humidity level below 60%. Shelf life is one year.

If you have any questions or concerns about purchasing or using our KraftKote products, please call Klockit's Technical Assistance Line at 1-800-556-6474 before ordering.

KraftKote Pours On A Lustrous, Clear Finish

KraftKote is a highly versatile liquid plastic coating that self-levels and then hardens to produce a thick, clear, durable and glossy finish. Product needs to be mixed with equal parts of Resin and Hardener in a measuring container (order 36086 \$3.99). Sets quickly with a hard finish. *Kits contain equal amounts of Resin and Hardener (8 oz. kit contains 4 oz. resin and 4 oz. hardener).*

See chart for coverage amounts.

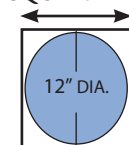

36047	8 oz. KraftKote	\$7.99 ea.
36048	16 oz. KraftKote	\$12.99 ea.
36049	1 qt. KraftKote	\$21.99 ea.
36050	1/2 gal. KraftKote	\$36.99 ea.
36051	1 gal. KraftKote	\$64.99 ea.
36046	4 gal. KraftKote	\$189.99 ea.,

(2-4) \$187.99 ea., (5+) \$185.99 ea.

How To Figure Square Feet For Coverage Amount

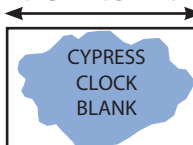

Circles & Ovals or Clock Blanks Ex-ample: 12" x 12" = 144 sq. in.

SQUARE 12"

144 sq. in. = 1 sq. ft.

RECTANGLE 17"

17" x 12" Equals 204 sq. in.

Amount	Coverage
8 oz.	2 sq. ft.
16 oz.	4 sq. ft.
1 qt.	8-12 sq. ft.
1/2 gal.	16-24 sq. ft.
1 gal.	32-48 sq. ft.
4 gal.	128-192 sq. ft.

Special Formula! Bar & Tabletop KraftKote

Tabletop KraftKote is 15% harder and more durable than regular KraftKote. Tabletop KraftKote can be used on tabletops, countertops or bar tops. Product needs to be mixed with equal parts of Resin and Hardener in a measuring container (order 36086 \$3.99). *Kits contain equal amounts of resin and hardener (1 gallon kit contains 1/2 gallon resin and 1/2 gallon hardener).*

See chart for coverage amounts.

36513	1/2 gal. Bar KraftKote	\$36.99 ea.
36514	1 gal. Bar KraftKote	\$64.99 ea.
36515	4 gal. Bar KraftKote	\$199.99 ea.,

(2-4) \$197.99 ea., (5+) \$195.99 ea.

After Pouring on KraftKote, Spray on "Eat-A-Bubble". Resin Bubbles Disappear!

Eat-A-Bubble is so easy to use. Just lightly mist it on your KraftKote project before the resin hardens. It eliminates the bubbles and gives you a totally clear, professional finish. 8 oz. plastic pump-spray bottle. 36001 (1-4) \$9.99 ea., (5+) \$9.59 ea.

Helpful Hints

What Is a Plan or Components?

A plan is a diagram that shows how to make all the wood parts. Components refer to all non-wood parts like the dial, hands, clock movement, or hardware. Working with a plan gives you the freedom to choose the type of wood you prefer and components offer the convenience of having all the non-wood parts to finish the job.

Buckboard Wagon Bench

- Finished Size:
42"L x 32"H x 22"D
- 49613 Plan Only \$7.99

The Cooper Collection

Purchase everything separately—**wood, grandfather clock movement, dial, pendulum, weight shell set, and glass.** You decide what to buy...and when!

The Cooper Collection blends solid hardwood construction with the most innovative clock movement mounting system ever designed making each clock movement incredibly easy to install and maintain.

Additional Features Only Found in the Cooper Collection Clocks:

- Clear grain, kiln dried North American Red Oak for all case parts
- Solid $\frac{3}{4}$ " thick Red Oak Rail & Stile Dial Panel Construction
- Case and Full Length Door made from $\frac{1}{2}$ " thick Red Oak Lumber
- Patent-Pending Movement Mounting System Works in Any Cooper Collection Clock Case
- Special Placement of the Independent Sound Board for Enhanced Chime Melody and Hour Strike Acoustics
- Cabinets Sized to run any Mechanical Movement for a full 7-8 Days
- Easy-to-Follow Written & Illustrated Instructions covering Clock Case Assembly and Movement Setup, Calibration and Installation

Movement Mounting System

At Klockit, we understand that one of the most challenging aspects of building a grandfather clock is the installation, calibration and regular maintenance of your mechanical clock movement.

This patent-pending mounting system, allows you to assemble the movement to the Mounting Module and calibrate the chimes all while still *outside the clock case*. Once you've completed setup and calibration, you install the entire module into your clock case.

Our instructions also include how to build the Mounting Module stand (shown left). When it's time for cleaning and maintenance, just remove the upper case back panel, slide out the Mounting Module and attach it to your stand. What could be easier?

13003 Movement Mounting System Plan Booklet **\$5.00**

Brookwood Grandfather Kit

- Choice of Grandfather Mechanical Movements : 13044, 13075, 13088, 13049, 13055, 13005, 13104 (sold separately, see pages 50-53)

- 4 3/4" Black Serpentine Hands & Second Hand
- Full 2-year Warranty

13049* Triple-Chime Grandfather Movement \$959.99

How to Select A Movement:

First, select the clock case you are going to build. Refer to our Mechanical Movement Manual (13000) and dimensional specification sheets to determine which movements are available for your case. Then ask yourself the following questions: 1) Do I want *Westminster* or *Westminster* plus two other chimes. 2) Do I prefer the chimes played on chime tubes, rods, coil gongs or bells. 3) Would I prefer chain or cable drive? 4) What is my price range? A clock movement is a life long investment and should be selected with care.

Helpful Hints

Winding a Chain-Driven or Cable-Driven Mechanical Movement

To wind a chain-driven movement, open the waist door of the cabinet and pull the free end of the chain(s) downward.

To wind a cable-driven movement, insert the winding crank into the dial's winding arbor holes (A) and crank up the weights.

*Oversized item. Additional shipping charges are required for Next Day, 2-Day, or 3-Day delivery.

A Quality Movement from Hermle, Germany

Hermle was founded in 1922 and is headquartered in Gosheim Germany, in the traditional clock making region of the Black Forest. The Hermle brand is synonymous with German quality products and traditional craftsmanship combined with state-of-the-art clock manufacturing technology.

Dial, Pendulum, & Weight Shell Options

We now sell most mechanical movements, dials, pendulums, and weight shell sets separately making it easier than ever to customize the look of your mechanical clock movement.

Start by selecting a movement. Each movement's description will include the pendulum length required for that movement. Use that length to make your pendulum selection. Finish by choosing a dial (page 54) and weight shell set (page 55) that corresponds to your movement's stock number.

Precision Clock Oiling Kit

This indispensable kit includes a tube of grease for hammers and levers, 3.5 ml. bottle of synthetic oil, covered oil cup, pithwood block, oil cup filler, two applicators and instructions.

99127 \$59.99

Long Needle Oiler

Tend to all those hard-to-reach areas of your clock movement with this long needle oiler. It contains 4 ml. of #859 synthetic clock oil which retards dust.

- Overall Length: 5"
- Needle Length: 2 1/4"

99125 \$24.99

Clock Oiler

3/4" applicator filled with 15cc Densa oil.
99030 \$2.99
